

Number TRACING

Trace • Write • Count | 1 to 20

1 2 3 4 5
6 7 8 9 10
11 12 13 14
15 16 17 18
19 20

Dear Grown-Up,

This 1-20 workbook builds number recognition, counting, and number writing together. Each page: trace the gray numbers, write them on the lines, count and color the dots, and read the number word. Counting the dots links the symbol to a real quantity — the key early-math skill.

Tip: use a sheet protector + dry-erase marker to reuse each page.

Celebrate every page and go at their pace. ☐

1

1. Trace it

1

1

1

2. Write it

3. Count & color 1

1 = one
